BARRIERS TO FUTURE ATTAINMENT			
Academic barriers:			
A	Varying gaps in students' knowledge and skills across different subjects.		
В	Varying engagement with teaching during lockdown.		

ADDITIO	ADDITIONAL BARRIERS		
External barriers:			
С	Some students struggle to organise and prioritise their workload and, as a consequence, fall further behind.		
D	Some students lack confidence in their ability to catch up.		
E	Anxiety from students and parents which can hinder student progress.

Subject Leaders to work with their teams to identify gaps in knowledge and understanding and prioritise, intervene and assess to ensure the gaps have been filled.	Most gaps are filled using the Excellence in Teaching model.	Prof. Rob Coe's work showed that when teachers tailor teaching to identified gaps rather than seek to re-teach all that the students have missed, students are able to attain as well as previous cohorts (research following Hurricane Katrina and the New Zealand earthquake).	SLT to monitor impact with linked departments.	DH	Every term

Small group tuition	Increased student confidence and improved grades.	EEF Guidance suggests that small group tuition can add up to 5 months of progress. Evidence also shows that tuition should be explicitly linked to what is being taught in class.	Reports and feedback from students illustrate that tuition has had a positive impact on confidence and grades.	ND, OB and JG	Termly
Supervised Study	Increased rate of submission and increased student confidence.	ClassCharts data from the lockdown period suggest that a small number of students struggled to submit work. For those students who attended Supervised Study during lockdown, it significantly improved their completion rate.	Evidence of improved completion rates from ClassCharts and feedback from students and parents.	ND and SW	Termly
